What FireFighters are saying about this essential course....

"...the best class decision-making class I've taken in my 20 years as a Fire Officer..."

"Loved the practical examples and video clips!"

"...very practical and to the point!"

"...great instructor! Dave always brings it."

It has been said, "So goes First-Due, So goes the Incident!" Our incidents are changing in scope, impact, and complexity – and so must our ability to RAPIDLY survey and decide the right course of action when first arriving. Often, the smoke issuing from a building is the only clue that a hostile fire event will quickly trap or kill firefighters. "Reading Smoke" tells us how to read a fire and predict its progress – the "Art of First-Due" builds on this and will help you learn to read the building and read risk. ***This is NOT your typical size-up class!***
